**\$40,000 CHURCH****ASSAULT TO MURDER**

Plans for constructing the new \$40,000 Methodist church at the corner of Mesquite and Mann streets are expected to be presented by a number of different architects of the state early in January, according to information received yesterday by a Caller reporter from a prominent member of the Methodist church.

No special progress has been made in getting the plans ready during the past several months, but that the members will "get busy" and close all plans and begin active work during the early months of 1912 now seems assured.

**WESTERN UNION  
CABLE LETTERS**

CABLE LETTERS CAN BE SENT THROUGHOUT THE WORLD.

Innovation Established by Western Union Promises to Be Popular Feature of Telegraph Service.

\$16,000

"It has been arranged commencing tomorrow, December 10th, to institute two new forms of cable service to be known as cable letters and week end letters.

These new services are not offered as substitutes for the present regular cable service, but are intended to place the Atlantic cables within reach of the public at rates which will encourage their use for social and business communications which are now subject to delay of over-sea mails and which are of sufficient importance to justify moderate charge for the use of the cables whilst not of such pressing urgency as to warrant the cost of an expedited cable service.

The new services are predicated upon the use of cable facilities at times when the latter would otherwise be unemployed.

Cable letters may be filed at any open Western Union office at any hour to be forwarded to the cable terminus at New York or Boston by mail or telegraph at the option of the sender, from whence they will be cabled at the convenience of the company to reach London or Liverpool in time for delivery on the morning of the second day following their receipt at New York or Boston.

Week end letters may be filed at midnight on Saturday for delivery at London or Liverpool on the following Tuesday morning. They may of course be filed before Saturday but will in no case be delivered until Tuesday morning. These will of course be filed before Saturday but will in no case be delivered until Tuesday morning. Both cable letters and week end letters must be written in plain English language, code words and words in foreign languages are inadmissible.

The tariff for the cable transmission of cable letters will be \$1.50 for 20 words with 25 cents added for each additional 5 words, and for week letters \$1.50 for 20 words with 25 cents added for each additional 5 words.

These tolls cover the transmission between New York or Boston as the cable terminal on this

side and London or Liverpool on the other side of the Atlantic. They also include delivery at London or Liverpool and the postage where postage is involved.

Outside of London and Liverpool all cables and week end letters will be delivered by mail unless otherwise arranged by sender. Telegraphic delivery beyond London may be arranged by payment of a charge of one cent per word (with a minimum of 12 words including address and signature) to points in Great Britain and Ireland or by payment of regular word rates to other points beyond London as published on pages 772 and 778 of the tariff book: in addition into the cable letter or week end letter tolls quoted.

The tolls quoted also cover the mailing to the cable terminal at New York or Boston of cable letters of week end letters offered at offices in other places when the senders wish them to be filed by them. If telegraphic transmission between place of origin and New York or Boston is desired senders have the option of designating the class of service desired, whether day message, day letter or night letter, and the regular rates for the class of service selected will be charged in addition to the other charges. If night letter service is selected it should be understood that under the conditions governing that service the communication is not due to reach the Central Cable office at New York or Boston until the following morning and consequently will be scheduled to reach London or Liverpool on the second morning following which would be the third morning from date of filing.

It will of course be necessary to indicate in every case whether mail or telegraphic delivery on the other side is to be made if the destination is other than London or Liverpool. This indication may be given by endorsing on the message if mailed or transmitting in the check if wired, the designation "Letter-mail" or "Letter-wire" for cable letters to be mailed or wired respectively or by a similar use of the designation "week-mail" or "week-wire" for week end letters to be posted or wired respectively. To illustrate a 20 word cable letter to Paris to be mailed from London would be checked "20 letter-mail."

Cable letters or week end letters from abroad which are to be mailed from New York to points on this side will of course be addressed directly to the addressee as destination and not mailed to local offices for delivery. To make such disposition of the letters Central Cable office will need to have the unpack of any registered addresses employed and all local registrations should at once be copied and mailed to Central

of the cable terminal on this

side and London or Liverpool as the terminal on the other side of the

Atlantic. They also include delivery at London or Liverpool and the postage where postage is involved.

Outside of London and Liverpool all cables and week end letters will be delivered by mail unless otherwise arranged by sender. Telegraphic delivery beyond London may be arranged by payment of a charge of one cent per word (with a minimum of 12 words including address and signature) to points in Great Britain and Ireland or by payment of regular word rates to other points beyond London as published on pages 772 and 778 of the tariff book: in addition into the cable letter or week end letter tolls quoted.

The tolls quoted also cover the mailing to the cable terminal at New York or Boston of cable letters of week end letters offered at offices in other places when the senders wish them to be filed by them. If telegraphic transmission between place of origin and New York or Boston is desired senders have the option of designating the class of service desired, whether day message, day letter or night letter, and the regular rates for the class of service selected will be charged in addition to the other charges. If night letter service is selected it should be understood that under the conditions governing that service the communication is not due to reach the Central Cable office at New York or Boston until the following morning and consequently will be scheduled to reach London or Liverpool on the second morning following which would be the third morning from date of filing.
